VANSH SHARMA

Software Engineer | React · Next.js · Node.js · SQL

Delhi, India · +91 9354933921 · vansharma2702@gmail.com · linkedin.com/in/vansharma2702 · github.com/vansharma2704

PROFESSIONAL SUMMARY

Software Engineer with strong Computer Science fundamentals and hands-on experience building web applications with React, Next.js, Node.js, and MongoDB. Proficient in JavaScript, Java, C++, and Python, with experience designing REST APIs and writing clean, reusable, and maintainable code. Problem-solver who collaborates effectively in team environments, uses Git-based workflows and code reviews daily, and keeps learning new technologies to build reliable, high-performing software.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript (ES6+), Java, C++, Python, HTML5, CSS3
- **Frontend:** React.js, Next.js, Tailwind CSS, Responsive Web Design
- **Backend & Databases:** Node.js, Express.js, REST APIs, Prisma ORM, MongoDB, PostgreSQL, MySQL
- **Developer Tools:** Git, GitHub, Postman, VS Code, Linux, Vercel, Google Workspace
- **Core Computer Science:** Data Structures & Algorithms, OOP, Operating Systems, DBMS, Computer Networks

EXPERIENCE

Software Engineer — Cogmac Technologies · Mar 2026 – Present

- Developed reusable UI components using React.js and Next.js, accelerating frontend development across multiple applications.
- Built fully responsive web layouts with Tailwind CSS, ensuring cross-browser compatibility across mobile, tablet, and desktop screens.
- Integrated client-side user interfaces with backend RESTful APIs to enable dynamic data loading and state handling.
- Participated in Git-based team workflows, conducting peer code reviews and testing to ensure software quality.
- Identified frontend performance bottlenecks and refactored component structures to reduce redundant rendering and improve speed.

PROJECTS

AI Brand Studio — Next.js, React.js, Express, MongoDB, Prisma, OpenAI API, Gemini API

- Built a platform that generates brand-consistent marketing assets from product media and brand guidelines.
- Created a flexible prompt pipeline combining OpenAI and Google Gemini APIs for intelligent content generation.
- Designed database models and RESTful API endpoints to manage user assets and backend workflows efficiently.

K.AII – AI Career Mentor — React.js, Node.js, Express.js, MongoDB

- Developed a career guidance platform offering automated ATS resume analysis, career advice, and interview preparation.
- Built secure REST APIs and resume-parsing logic to evaluate candidate profiles against job requirements.

EDUCATION

Master of Computer Applications (MCA) — Raj Kumar Goel Institute of Technology · 2026 · CGPA 7.56/10

Bachelor of Computer Applications (BCA) — Guru Gobind Singh Indraprastha University · 2024 · CGPA 7.88/10

ACHIEVEMENTS & COMPETITIVE PROGRAMMING

- **1st Prize, Web Designing Competition (Tatva '25):** awarded first place for fast prototyping, creative visual layout, and clean full-stack application development.
- **Data Structures & Algorithms:** consistently practice problem-solving across arrays, dynamic programming, graphs, and trees to strengthen core CS knowledge.
- **Continuous Tech Exploration:** built multiple full-stack projects integrating RESTful web services, cloud tools, and modern AI APIs.
